

**ACADEMIC YEAR 2018–2019**

**REPORT OF RESEARCH IN ARCHITECTURE SEMINAR**

**SUBJECT:** Research In architecture

**GUEST OF HONOUR:** Dr. Abhijit Natu.

**Date:** 28/07/2018

Attendees: 13 faculty and 76 students

**OBJECTIVE:**

1. To understand the types of research.
2. How to develop a topic for research
3. How to guide students for research

**Brief about the event**

Dr. Abhijit Natu, Principal of BKPS COA has a vast experience in Architectural research. He has more than 30 journal article publications in this basket. He is a recognized Post-graduate and Ph.D. thesis/ research guide by Pune University and also is a member of numerous architectural committees and boards.

The seminar was conducted for final year students and their faculty to highlight the importance of research in architecture. How to translate a topic of interest into research. The speaker mentioned about various types of research and methodology for carrying out the research.

**OUTCOME**

Students received inputs for their basic studies in research and were overwhelmed by the lecture. Many students have taken their research studies seriously and are working on implementing the tips and techniques suggest by our honorable speaker.
